MORE ROOM FOR TOURISTS IS URGED

Honolulu faces a serious problem in providing housing accommodations for the great crowds of tourists who are expected to visit the Islands this winter. This was the consensus of opinion expressed at the adjourned quarterly meeting of the Merchants' Association yesterday afternoon, that body recognizing the gravity of the situation by passing a resolution asking the board of directors to make an investigation to decide upon a line of definite action, to be taken at an early date.

Honolulu's rooming accommodations proved insufficient during the tourist season last winter, all the hotels, being filled to capacity, and scores of visitors were compelled to remain aboard the ships at night. Attention to the subject was called by W. R. Farrington, who, in a talk with Secretary Wood, of the Promotion Committee, had been given to understand that even greater crowds are to be expected this year, and that it is up to the business men of Honolulu to care for the sightseers after inducing them to make the trip to the islands. Mr. Farrington had no suggestion to make for meeting the situation but put it up to the merchants.

Norman Watkins declared the city's rooming accommodations, instead of improving, are steadily growing less and asserted there is less room for population or visitors now than in years past. He said he believed the boarding houses and hotels are nearly filled to capacity already. The new cottage erected for rental purposes during the last twelve months have been taken almost as quickly as they were opened, with no apparent diminution in the boarding house population.

When it was suggested that the Promotion Committee assume the responsibility of planning for the entertainment of tourists Mr. Warren, a member of that body, protested that the committee's sole duty is to bring the visitors here. Once they are in the city, he asserted, it is the duty of the citizens and business men to see that they are given the care that will make their visit a pleasant one, so that they will come again or encourage their friends to make the trip.

Mr. Warren said it had proved difficult to obtain a definite idea of the accommodations for transients, no boniface or boarding house proprietor being willing to admit that he does not have almost unlimited room for additional business.

In the general discussion the scheme of a pleasure resort hotel establishment, operated after the fashion of the big institutions in California, Florida and along the Great Lakes, where great populations of pleasure-seekers congregate for several months each year, was broached and commented upon favorably. The project is considered practical, and it is possible that further investigation may prove the big summer hotel is the real solution of the problem, and that it may be a large feature in the future tourist season in the Territory.

Norman Watkins, as a member of a special committee appointed by Chairman Gignoux two weeks ago, reported yesterday that representatives of the Merchants' Association appointed to the Shippers' Wharf Committee have an equal vote with the representatives from the chamber of commerce, thus dissipating the report made some time ago that the men from the Merchants' Association had a voice, but no vote, in the affairs of the Shippers' Wharf Committee. Merle Johnson, a member of the committee appointed to oppose the Murray automobile ordinance before the board of supervisors, reported that Attorney E. C. Peters had discovered an old measure, passed in 1865 and forgotten in the half century that has elapsed since then, which gives the police power to regulate traffic. It was stated yesterday that the agitation over the proposed automobile measure had resulted in an improvement by the citizens along Fort Street and it is thought that the police traffic squad, by enforcing the old law, can prevent the congestion at which the proposed ordinance was aimed.

A HANDY INSTRUMENT FOR FIRE-FIGHTING.

With the Denio telephone fire alarm system in your home, store, or factory, you are safe, and save time by not having to run to a street corner to turn in an alarm. That time saved will, in nine cases out of ten, be sufficient to save you from loss of property and life.—advertisement.

Regular patrons of the Hawaii theater make it a point not to miss one of the program changes. It would always be a regret if they did. This cozy, cool and comfortable theater is filled nightly and there is satisfaction expressed on every face that comes out the door.

Estimates for the new crop of sugar have been made by the Sugar Factors' Company, which handles about 85 per cent of the total output of the islands. It is figured that the company will ship 449,396 tons, or from 40,000 to 50,000 tons less than the amount for the season just closed.

Lewers & Cooke, Ltd., is going to develop the line of builders' hardware more completely than heretofore, taking the store formerly occupied by Lewis & Co. in the Lewers & Cooke building for the department. Henry Giles, who has been in the hardware business here for twenty-four years with different firms, has been selected as manager of the store.

The statement made by a San Francisco paper that Miss Anna Klumpke, the famous artist, will paint a life-size portrait of ex-Queen Liliuokalani has been denied. Mrs. A. B. Ingalls, who entertained Miss Klumpke during her visit to Honolulu, says that she does not believe that any such arrangements have been made and that she thinks Miss Klumpke will not return to the islands.

A report has reached the Hawaiian Sugar Planters' Association that O. A. Steven, who for a year or two has been recruiting Filipino labor, has suffered a slight stroke of paralysis and will probably return here. Mr. Steven is an old resident of the islands and has done exceptionally good work in the matter of getting labor for the plantations. He was here a month ago and returned via Hongkong, where he was taken ill.

Local stockholders of Mountain King mine are again being urged to provide some money to carry development on, as advised by experts should be done to a certain point before letting go. William Pullar, manager of Honoumuli plantation, made some inquiries about the mine on his recent visit to California, and he is quoted as saying he thinks the stockholders are warranted in carrying on the work to the point recommended by Mr. Burch, the expert employed by the Hawaiian stockholders.

Marston Campbell yesterday severed his official connection with the government of the Territory, by clearing out his desk at the headquarters of the Department of Public Works and removing his effects to his office at the Honolulu Iron Works. His successor, H. K. Bishop, will arrive here Monday and at once assume his duties as superintendent of public works, chairman of the board of harbor commissioners and member of the loan fund commissions of the various islands.

SUGAR STOCKS ARE HOLDING THEIR OWN

Considerable activity is shown in Oahu, Wailua and Olaa at unchanged prices. Hawaiian Commercial has gained an eighth in a sale of 5 shares at 40. Sales of Oahu reported were 75 and 23 shares at 25.87-1/2, and of Olaa 100 and 50 shares at 3.27-1/2. Hilo railroad common retains 8.50 for 15 shares in recess.
Wailua brought 110 on the board for 20, 25 and 25 shares. Pahang, mutual sold up a quarter point to 19 1/2 for 25 shares. Hilo 1000 sixes sold down a quarter-point to par for \$1000.

A GREAT PHYSICIAN DECIDED IT

It was decided that the late Dr. M. Gardner, at that time Surgeon General of the Southern Pacific Railroad Company, should be asked to select a theoretically incurable case of chronic Bright's Disease. He picked out an employee in Arizona whose case had been passed on by three S. P. R. R. physicians. Case involved albumen, casts, dropsy, and patient was so weak he was in night sweats. Dr. Gardner did not believe he could live sixty days.

He was put on Fulton's Renal Compound and we waited. In thirty days improvement was reported and less than six months later patient was recommended for light employment, tests by the local physicians whom we never saw reporting disappearance of the albumen and casts. Dr. Gardner's favorable report (our thirty-fourth test case) caused the closure of the negotiations and the determination to announce the results Fulton's Renal Compound is getting in kidney disease. It can be had at Honolulu Drug Co., Fort street.

Ask for pamphlet or write to John J. Fulton Company, San Francisco.

YEE CHAN & CO.'S REDUCTION SALE

In order to make room for their display goods which will shortly arrive, Yee Chan & Co., the big dry goods and gent's furnishing concern at the corner of Bethel and King streets, will hold a two weeks' reduction sale, beginning tomorrow morning.

Prices have been slashed in all departments in order to clear their shelves for the Christmas line, which will be larger and more varied this year than ever before, as their Eastern buyer was on the ground early this trip and had first choice.

Whilst their entire stock has been marked down, special attention is called to their bargain counter, which contains odds and ends marked down to one-half and one-third of the original price. In their aid, in this issue they quote a few prices which will give an idea of the enormity of the sale. The sale will only last two weeks, and thrifty buyers will call early, as at such prices the choice goods will not last long.—advertisement.

MEAT COMPANY MAY HAVE STEAMER SERVICE

There is talk of the Hawaii Meat Company's establishing cold storage works in Waimea district, Hawaii, putting on a special steamer service of its own between there and Honolulu.

President Kennedy of the L. L. S. N. Co. is quoted as saying that he had heard of the project. He supposed that the graziers might have objections to the service of that company because they could not always have a steamer at their beck and call.

C. J. Walker, manager of the Hawaii Meat Co., attributes the shortage of beef to the drought, and says Australian beef can be placed here cheaper than American beef. He believes that the importation of the Australian beef will continue for three months. It was stated in this paper some days ago that the local market during November would depend on the Australian market.

PNEUMONIA.

You never heard of anyone who used Chamberlain's Cough Remedy having pneumonia and millions of bottles of that remedy are sold every year. Pneumonia is undoubtedly a germ disease, and this remedy cleans out the culture beds that form in the throat and bronchial tubes and develop the germ of that disease. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

AMERICA SEEKING NAVAL BASE IN CHINA

Report That the State Department Is About to Open Negotiations

WASHINGTON, September 28.—The United States may acquire a big naval base in Asia as the result of the recent rejection by China of the \$350,000,000 international loan.

This naval base is the Chusan archipelago, at the mouth of the Yangtze river, near Ningpo. It is reported here that the state department is about to take up with the Chinese republic a proposition on the part of the United States to pay China an immense sum for a 99 years' lease of Chusan. An effort may be made to buy the archipelago outright. China needs money, and it is be-

lieved by diplomats here that she would see a way out of her financial difficulties by ceding or leasing Chusan to the United States.

China would rather cede or lease Chusan to this country than any nation, say the diplomats, because Peking regards the United States as the only real friend of China among the powers.

The Chinese government, the diplomats declare, would regard an American naval station at Chusan as a deterrent to plans of the European powers eventually to partition China. The Peking government would have two weighty reasons for allowing this country to control Chusan. The United States would pay enough cash for the archipelago to put China on her feet financially, and an American naval station on the Chinese Coast would be a standing menace to plans of the European powers to carve up the infant republic. For these rea-

sons it is believed in Washington that the big project may become a reality.

England, Italy, Germany and France, within the last two years, have in turn asked China to sell or lease Chusan, but were refused. At one time China planned to create her principal naval station at Chusan.

The possession of Chusan by the United States, according to naval strategists, would give this country a Gibraltar in the Far East, and would enable the United States to wield a preponderating influence in the Pacific, besides having a base from which the Philippines could be better protected in the event of war.

A thief in the express office at Skagway, Alaska, sandbagged the station man and got away with \$1200. In his rush he overlooked \$250,000 right at hand.
